

Prayer Before Surgery
By Maureen St Germain

I ask my angels and guides to fill the operating room and recovery room and sleeping room or any other room that I may be in during my pre -op, operation and post-operative process. I am calling forth a Ring-Pass-Not around the surgery room, prep room, recovery room and every other room I may be escorted to during the whole procedure in the hospital or clinic. I now command that this Ring-Pass-Not serve as a barrier to prevent any and all entities or energies of any kind that are not of 100% God Light from entering my physical body, or any of my four lower bodies that includes my mental body, my emotional body and etheric body. I ask Archangel Michael and his Blue Lightning Angels to post four Angels, one in each corner of this space, one in each corner of any of the rooms anywhere I am taken to – these sentries are to serve as Guardians of my physical body, and of all my four lower bodies, safekeeping my soul. I ask for a million Angels of 100% God Light to fill these rooms continually wherever I am. I ask the highest, most advanced specialized Beings of 100% God Light to overshadow my surgeon, my anesthesiologist and any other attending physicians, nurses and caregivers of my surgery for the purpose of assisting them in their work and achieving our mutually defined Highest and Best Good. I ask for the resources for my recovery from this surgery to exceed expectations. I ask and command that I am well-recovered and healed in record time—in weeks, instead of months. I intend that my body is healthy, working at its full capacity, and that all of the structures involved are perfect for me. I attract everything I need for the healing of my situation and circumstance. Amen. It is done. I ask for a Most Benevolent Outcome for this day and the day of my surgery, and I ask for and claim a day of Heaven on Earth for this day and for every day thereafter, to insure my rapid recovery in 100% God Light. Amen.
