

St. Germain Mystery School

Heavenly Father-Mother God,

In the name of the I/WE AM that I/WE AM I/WE humbly invoke the presence of the Beings of Light, The Great Central Sun, The Ascended Hosts, The Elohim, the Ascended Masters, The Angels and the entire retinue of the Angelic Realm. I/WE ask for the presence of the Ancestors of this land and my own Ancestors who are of the light. I/WE ask for the Dolphins and the Whales to join me/us; the ET's of the Light(who are my friends and sponsors), the Mighty Dragons, the Serendipities, the Hathors, the Unicorns. We invite the Golden Sheets to embrace us and all beings of 100% God Light known or unknown to me/us who may be available to assist me/us, to join me/us here and now, and support me/us in remembering my true divine identity and my true divine power.

I/WE ask for the full expression of my Higher Self to be ever present with me/us this day and to join me/us in my heart where I/WE AM (take time to welcome your HS into your heart using your magic word). Let me/us be ONE with my most evolved self.

I/WE ask the Masters, Teacher & Guides of me/us to be ever present with me/us this day and ask they be given full access to my four lower bodies, to help me/us with living, thinking, feeling and connecting with Spirit. Help me/us in any way I/WE may need and provide me/us with guidance wherever it is needed to assist me/us in pursuing my soul's highest purpose in this lifetime and in my ascension path with the most evolved expression possible that manifests in the kindest, most generous and gentle way.

I/WE call in the four directions; East, South, West and North

- I/WE call in East, representing Spring, the time of new beginnings, the place of birth of new knowledge and understanding;
- I/WE call in South, representing Summer, the time of rapid

growth, fruitfulness and abundant awareness; and the expansion of our knowledge

- and I/WE call in West, representing Autumn, the time of reaping the fruits of our labors. It is the place where we have found our knowledge and our center and we use it.
- I/WE call in North, representing Winter, the place of rest where we repair ourselves and consciously prepare for change;

I/WE now call in the four elements; Earth, Air, Fire and Water:

- I/WE call in Earth for clarity and grounding and a connection to Mother Earth and all there upon;
- I/WE call in Air for connection with imagination, connection to the light and our connection to Father Sky;
- I/WE call in Fire for passion, compassion, transformation, transmutation and enthusiasm (You might light a candle or intend to do so in your mind's eye);
- and I/WE call in Water, to assist intuition and flow, and the full penetration of the light of God, the Hoga Sofia.

I/WE send my love and gratitude to all of the Elemental Kingdom for their service.

I/WE offer myself in humble gratitude in service to the Great White Brotherhood, Legions of 100% God Light and all beings of 100% God Light who are now here working with me/us. Let me/us be of service.

*Own Intentions:*

I/WE give thanks for the privilege of being here. I/WE lovingly ask for and accept all the gifts that I/WE might receive this day and I/WE ask for and claim a day (or evening) of Heaven on Earth for myself and for everyone I/WE come in contact with and for everyone I/WE am in contract with.

Amen
